Front-End Developer with more than 3 years of experience in creating and optimizing user interfaces and functionalities for large-scale web applications. I have solid knowledge in web technologies. I am looking for a role as Front-End Developer where I can apply my experience and continue to contribute to the success of the organization.

PROFESSIONAL EXPERIENCE

SOEN, Lima

Analyst Programmer, September 2022 - October 2024

- I worked on interfaces from mockups to code, integrating APIs with the backend and applying validations and business rules in key projects.
- I developed a platform from scratch, leading the front-end as the only person in charge and managing the integration of APIs and complex business rules for an administrative web.
- I created dynamic screens and used libraries to render dynamic SVG content, improving data visualization and interaction with backend APIs.

GAMARRA TEXTIL, Lima

Front-end Developer, November 2021 - September 2022

- I maintained and extended functionalities of a project in production, demonstrating fast adaptability and collaborating effectively with the backend team.
- I developed an online store from scratch with payment gateway using modern technologies and overcame the challenge of deploying it in production after extensive research.
